Hamza Belakri

Profile

A management graduate with nearly four years of experience in customer service, I have transitioned into a Full Stack Web Developer. Driven by my innate curiosity and a desire for continuous growth, I proactively immersed myself in self-study, online courses, and practical projects to gain proficiency in both front-end and back-end development. I'm looking for a role where I can grow and continue to learn from other experienced team members.

Experience

- Feb 2023**
IoWaves, I Ariana
Full Stack Developer Intern
 - Developing and implementing microservices infrastructure using NestJS
 - Integrating RabbitMQ as a message broker for asynchronous communication between the microservices
 - Implementing user authentication and authorization using Keycloak
 - Building and managing containerized applications using Docker
 - Setting up and configuring InfluxDB for time-series data storage using Golang
 - Implementing responsive and interactive user interfaces using React, Preact...
- Nov 2019 – Sep 2022**
Transcom I Ariana
